Book Nickleby to come to your group and you can be assured of a first class and professional show. Nickleby has a great manner with children. Over the past four years he has been a presenter in the Kool Kids Care Primary School Show which has been seen by half a million students. His new show has been developed with pre-school children in mind.

In 2006 Nickleby won 1st place awards for the Best Children's Act & Best Stage Act at the New Zealand International Magicians Convention. His show will not only have amazing magic tricks but there will also be a message, music and catchy songs which the children can sing along to.

Nickleby not only wants the kids to have a load of fun but also wants to teach a simple message about treating others kindly, getting along together & sharing with others. With magic words like Please and Thank You, children learn good manners along the way.
